

98362C Condenser Replacement Kit

In our continuous improvement, the following table shows models that have had a newer style condenser put into them. In the event where you are seeking a replacement condenser for these models, please note the old condenser used vs. the new one which you will receive. This will also require a different charge than what is on the unit. Please place new label on unit for future reference.

Old P/N	New Part Desc.	New P/N	Old Part Desc.	Model	New Charge R134a (oz.)
66305C	Condenser - Marked with the following: Heatcraft 2CM-I-26C OR Modine Type "R"	66764C	Condenser - Marked with the following: Bois D'Arc Model No.: Type B	ER10 - 115V HRC2-10 - 115V SJ10 - 115V	6.25 oz.
				ER10 - 220-240V HRC2-10 - 220-240V SJ10 - 220-240V	5.75 oz.
				FD10 - 115V FGDF10 - 115V LFDE10 - 115V S1000-10 - 115V	5.50 oz.
				FD10 - 220-240V FGDF10 - 220-240V LFDE10 - 220-240V S1000-10 - 220-240V	5.00 oz.

IMPORTANT: Please place new label on unit for future reference.
